# Sunplus Technology Company Limited and Subsidiaries

Consolidated Financial Statements for the Three Months Ended March 31, 2014 and 2013 and Independent Auditors' Review Report

#### INDEPENDENT ACCOUNTANTS' REVIEW REPORT

The Board of Directors and Shareholders Sunplus Technology Company Limited

We have reviewed the accompanying consolidated balance sheets of Sunplus Technology Company Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") as of March 31, 2014 and 2013 and the related consolidated statements of comprehensive income, changes in equity and cash flows for the three months then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these financial statements based on our reviews.

Except as stated in the following paragraph, we conducted our reviews in accordance with Statement of Auditing Standards No. 36 "Engagements to Review Financial Statements" issued by the Auditing Standards Committee of the Accounting Research and Development Foundation of the Republic of China. A review consists principally of applying analytical procedures to financial data and of making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of China, the objective of which is the expression of an opinion regarding the consolidated financial statements taken as a whole. Accordingly, we do not express such an opinion.

As disclosed in Note 4(4), the financial statements of some immaterial subsidiaries included in the consolidated financial statements were based on the investees' unreviewed financial statements. The total assets of these subsidiaries as of March 31, 2014 and 2013 were NT\$6,686,655 thousand and NT\$5,886,281 thousand, respectively accounting for 46% and 41%, respectively, of the total consolidated assets, and the total liabilities were NT\$1,651,799 thousand and NT\$1,666,075 thousand, respectively, accounting for 43% and 40%, respectively, of the total consolidated liabilities. For the three months ended March 31, 2014 and 2013, the total comprehensive losses were NT\$160,611 thousand and NT\$46,264 thousand, respectively, were 66% and 253%, respectively, of the total consolidated comprehensive income. In addition, as disclosed in Note 13 to the consolidated financial statements, the carrying values of some associates as of March 31, 2014 and 2013 were NT\$124,493 thousand and NT\$1,808,788 thousand, respectively. For the three months ended March 31, 2014 and 2013, the related investment results were net losses of NT\$12,511 thousand and NT\$26,954 thousand, respectively. These investment amounts and other associates' information disclosed in Note 37 to the financial statements were based on these associates' unreviewed financial statements for the same reporting periods as those of the Company.

Based on our reviews, except for the effects of adjustments that might have been determined to be necessary had the equity-method investees' financial statements mentioned in the preceding paragraph been reviewed, we are not aware of any material modifications that should be made to the consolidated financial statements as of and for the three months ended March 31, 2014 and 2013 of Sunplus Technology Company Limited and its subsidiaries referred to the first paragraph for them to be in conformity with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and the International Financial Reporting Standard 1 "First-time Adoption of International Financial Reporting Standards" and International Accounting Standard 34 "Interim Financial Reporting" endorsed by the Financial Supervisory Commission of the Republic of China.

May 14, 2014

#### Notice to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such consolidated financial statements are those generally applied in the Republic of China.

For the convenience of readers, the independent auditors' review report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language independent auditors' review report and consolidated financial statements shall prevail.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS THREE MONTHS ENDED MARCH 31, 2014 AND 2013 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise) (Reviewed, Not Audited)

#### **1. GENERAL INFORMATION**

Sunplus Technology Company Limited (the "Company") was established in August 1990. It researches, develops, designs, tests and sells high quality, high value-added consumer integrated circuits (ICs). Its products are based on core technologies in such areas as multimedia audio/video, single-chip microcontrollers and digital signal processors. These technologies are used to develop hundreds of products including various ICs: liquid crystal display, microcontroller, multimedia, voice/music, and application-specific. Sunplus' shares have been listed on the Taiwan Stock Exchange since January 2000. Some of its shares have been issued in the form of global depositary receipts (GDRs), which have been listed on the London Stock Exchange since March 2001 (refer to Note 23).

Following is a diagram of the relationship and ownership percentages between Sunplus and its subsidiaries (collectively, the "Group") as of March 31, 2014:

Sunplus mMobile, iCatch, Sunplus mMedia, Sunplus Innovation and Sunplus mMobile SAS research, develop, design, manufacture and sell all kinds of IC modules, application software and silicon intellectual property (SIP). Sunplus Technology (Shanghai) manufactures and sells ICs and building rental. Sunplus Prof-tek (Shenzhen) and SunMedia Technology researches and sells computer software and provides system integration services. Sunplus App Technology Co., Ltd. manufacture and sell ICs. Ytrip Technology mainly does system services and manages web business. 1culture Communication Co,. Ltd mainly do web business develop. Sunplus Technology (Beijing) develops Software and technology serves. Han Young mainly do information supply services, researches and sells ICs. Sunext mainly develops, and sells optical electronic and SOC (system on chip) ICs. Generalplus researches, develops, designs, manufactures, and sells custom-made ICs. Generalplus Shenzhen and Generalplus HK do market research surveys. Sunplus HK engages in international trade. All other subsidiaries are engaged in investing activities.

The consolidated financial statements are presented in the Company's functional currency, the New Taiwan dollar.

#### 2. APPROVAL OF FINANCIAL STATEMENTS

The consolidated financial statements were approved by the board of directors and authorized for issue on May 14, 2014.

#### 3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

a. The 2013 version of the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), Interpretations of IFRS (IFRIC), and Interpretations of IAS (SIC) in issue but not yet effective

Rule No. 1030010325 issued by the FSC on April 3, 2014, stipulated that the Group should apply the 2013 version of IFRS, IAS, IFRIC and SIC (collectively, the "IFRSs") endorsed by the FSC starting January 1, 2015.

New, Amended and Revised Standards and Interpretations (the "New IFRSs")	Effective Date Announced by IASB (Note)
Improvements to IFRSs (2009) - amendment to IAS 39	January 1, 2009 and January 1,
	2010, as appropriate
Amendment to IAS 39 "Embedded Derivatives"	Effective for annual periods ended on or after June 30, 2009
Improvements to IFRSs (2010)	July 1, 2010 and January 1, 2011, as appropriate
Annual Improvements to IFRSs 2009-2011 Cycle	January 1, 2013
Amendment to IFRS 1 "Limited Exemption from Comparative IFRS 7	July 1, 2010
Disclosures for First-time Adopters"	
Amendment to IFRS 1 "Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters"	July 1, 2011
Amendment to IFRS 1 "Government Loans"	January 1, 2013
Amendment to IFRS 7 "Disclosure - Offsetting Financial Assets and Financial Liabilities"	January 1, 2013
Amendment to IFRS 7 "Disclosure - Transfer of Financial Assets"	July 1, 2011
IFRS 10 "Consolidated Financial Statements"	January 1, 2013
IFRS 11 "Joint Arrangements"	January 1, 2013
IFRS 12 "Disclosure of Interests in Other Entities"	January 1, 2013
	(Continued)

New, Amended and Revised Standards and Interpretations (the "New IFRSs")	Effective Announced by	
Amendments to IFRS 10, IFRS 11 and IFRS 12 "Consolidated Financial Statements, Joint Arrangements and Disclosure of Interests in Other Entities: Transition Guidance"	January 1, 2013

IFRIC 20 "Stripping Costs in Production Phase of a Surface Mine"	January 1, 2013	(Concluded)

Note: Unless stated otherwise, the above New IFRSs are effective for annual periods beginning on or after the respective effective dates.

Except for the following, the initial application of the above 2013 IFRSs version has not had any material impact on the Group's accounting policies:

1) IFRS 10 "Consolidated Financial Statements"

IFRS 10 replaces IAS 27 "Consolidated and Separate Financial Statements" and SIC 12 "Consolidation - Special Purpose Entities". The Group considers whether it has control over other entities for consolidation. The Group has control over an investee if and only if it has i) power over the investee; ii) exposure, or rights, to variable returns from its involvement with the investee and iii) the ability to use its power over the investee to affect the amount of its returns. Additional guidance has been included in IFRS 10 to explain when an investor has control over an investee.

2) IFRS 11 "Joint Arrangements"

IFRS 11 replaces IAS 31 "Interests in Joint Ventures" and SIC 13 "Jointly Controlled Entities -Non-monetary Contributions by Ventures". Joint arrangements are classified as joint operations or joint ventures, depending on the rights and obligations of the parties to the arrangements. Joint ventures are accounted for using the equity method. Under IAS 31, Joint arrangements are classified as jointly controlled entities, jointly controlled assets, and jointly controlled operations, and the Group accounts for its jointly controlled entities using the proportionate consolidation method.

3) IFRS 12 "Disclosure of Interests in Other Entities"

IFRS 12 is a new disclosure standard and is applicable to entities that have interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. In general, the disclosure requirements in IFRS 12 are more extensive than in the current standards.

4) Revision to IAS 28 "Investments in Associates and Joint Ventures"

Revised IAS 28 requires when a portion of an investment in an associate meets the criteria to be classified as held for sale, that portion is classified as held for sale. Any retained portion that has not been classified as held for sale is accounted for using the equity method. Under current IAS 28, when a portion of an investment in associates meets the criteria to be classified as held for sale, the entire investment is classified as held for sale and ceases to apply the equity method.

Under revised IAS 28, when an investment in a joint venture becomes an investment in an associate, the Group continues to apply the equity method and does not remeasure the retained interest. Under current IAS 28, on the loss of joint control, the Group measures at fair value any investment the Group retains in the former jointly controlled entity. The Group recognizes in profit or loss any difference between the aggregate amounts of fair value of retained investment and proceeds from disposing of the part interest in the jointly controlled entity, and the carrying amount of the investment at the date when joint control is lost.

5) IFRS 13 "Fair Value Measurement"

IFRS 13 establishes a single source of guidance for fair value measurements. It defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements. The disclosure requirements in IFRS 13 are more extensive than those required in the current standards. For example, quantitative and qualitative disclosures based on the three-level fair value hierarchy currently required for financial instruments only will be extended by IFRS 13 to cover all assets and liabilities within its scope.

The fair value measurements under IFRS 13 will be applied prospectively from January 1, 2015.

6) Amendment to IAS 1 "Presentation of Items of Other Comprehensive Income"

The amendment to IAS 1 requires items of other comprehensive income to be grouped into those items that (1) will not be reclassified subsequently to profit or loss; and (2) may be reclassified subsequently to profit or loss. Income taxes on related items of other comprehensive income are grouped on the same basis. Under current IAS 1, there were no such requirements.

The Group will apply the above amendments in presenting the consolidated statement of comprehensive income, starting from the year 2015. Items not expected to be reclassified to profit or loss are the actuarial gain (loss) arising from defined benefit plans and share of the actuarial gains (loss) arising from defined benefit plans of [associates/joint ventures] accounted for using the equity method. Items expected to be reclassified to profit or loss are the exchange differences on translating foreign operations, unrealized gains (loss) on available-for-sale financial assets, cash flow hedges, and share of the other comprehensive income (except the share of the actuarial gains (loss) arising from defined benefit plans) of [associates/joint ventures] accounted for using the equity method.

7) Revision to IAS 19 "Employee Benefits"

Revised IAS 19 requires the recognition of changes in defined benefit obligations and in the fair value of plan assets when they occur, and hence eliminate the "corridor approach" permitted under current IAS 19 and accelerate the recognition of past service costs. The revision requires all actuarial gains and losses to be recognized immediately through other comprehensive income in order for the net pension asset or liability to reflect the full value of the plan deficit or surplus. Furthermore, the interest cost and expected return on plan assets used in current IAS 19 are replaced with a "net interest" amount, which is calculated by applying the discount rate to the net defined benefit liability or asset.

Except for the above impacts, as of the date the consolidated financial statements were authorized for issue, the Group was continuingly to assess other possible impacts that the application of the 2013 IFRSs version will have on the Group's financial position and financial performance and will disclose these other impacts when the assessment is completed.

b. New IFRSs in issue but not yet endorsed by FSC

The Group has not applied the following New IFRSs issued by the IASB but not yet endorsed by the FSC. As of the date the consolidated financial statements were authorized for issue, the FSC has not announced their effective dates.

New IFRSs         Announced by IASB (Note 1)	)
Annual Improvements to IFRSs 2010-2012 Cycle July 1, 2014 (Note 2)	
Annual Improvements to IFRSs 2011-2013 Cycle July 1, 2014	
IFRS 9 "Financial Instruments" Note 3	
Amendments to IFRS 9 and IFRS 7 "Mandatory Effective Date of Note 3	
IFRS 9 and Transition Disclosures"	
Amendment to IFRS 11 "Accounting for Acquisitions of Interests in January 1, 2016	
Joint Operations"	
IFRS 14 "Regulatory Deferral Accounts" January 1, 2016	
Amendments to IAS 16 and IAS 38 "Clarification of Acceptable January 1, 2016	
Methods of Depreciation and Amortization"	
Amendment to IAS 19 "Defined Benefit Plans: Employee July 1, 2014	
Contributions"	
Amendment to IAS 36 "Impairment of Assets: Recoverable Amount January 1, 2014	
Disclosures for Non-financial Assets"	
Amendment to IAS 39 "Novation of Derivatives and Continuation of January 1, 2014	
Hedge Accounting"	
IFRIC 21 "Levies" January 1, 2014	

- Note 1: Unless stated otherwise, the above New IFRSs are effective for annual periods beginning on or after their respective effective dates.
- Note 2: The amendment to IFRS 2 applies to share-based payment transactions with grant date on or after July 1, 2014; the amendment to IFRS 3 applies to business combinations with acquisition date on or after July 1, 2014; the amendment to IFRS 13 is effective immediately; the remaining amendments are effective for annual periods beginning on or after July 1, 2014.
- Note 3: IASB tentatively decided that an entity should apply IFRS 9 for annual periods beginning on or after January 1, 2018.

The initial application of the above New IFRSs has not had any material impact on the Group's accounting policies, except for the following:

1) IFRS 9 "Financial Instruments"

#### Recognition and measurement of financial assets

With regards to financial assets, all recognized financial assets that are within the scope of IAS 39 "Financial Instruments: Recognition and Measurement" are subsequently measured at amortized cost or fair value. Specifically, financial assets that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortized cost at the end of subsequent accounting periods. All other financial assets are measured at their

fair values at the end of reporting period. However, the Group may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognized in profit or loss.

#### Recognition and measurement of financial liabilities

As for financial liabilities, the main changes in the classification and measurement relate to the subsequent measurement of financial liabilities designated as at fair value through profit or loss. The amount of change in the fair value of such financial liability attributable to changes in the credit risk of that liability is presented in other comprehensive income and the remaining amount of change in the fair value of that liability is presented in profit or loss, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value attributable to a financial liability's credit risk are not subsequently reclassified to profit or loss. If the above accounting treatment would create or enlarge an accounting mismatch in profit or loss.

2) Amendment to IAS 36 "Recoverable Amount Disclosures for Non-financial Assets"

In issuing IFRS 13 "Fair Value Measurement", the IASB made consequential amendment to the disclosure requirements in IAS 36 "Impairment of Assets", introducing a requirement to disclose in every reporting period the recoverable amount of an asset or each cash-generating unit. The amendment clarifies that such disclosure of recoverable amounts is required only when an impairment loss has been recognized or reversed during the period. Furthermore, the Group is required to disclose the discount rate used in measurements of the recoverable amount based on fair value less costs of disposal measured using a present value technique.

3) Annual Improvements to IFRSs: 2010-2012 Cycle

Several standards including IFRS 2 "Share-based Payment", IFRS 3 "Business Combinations" and IFRS 8 "Operating Segments" were amended in this annual improvement.

The amended IFRS 2 changes the definitions of "vesting condition" and "market condition" and adds definitions for "performance condition" and "service condition". The amendment clarifies that a performance target can be based on the operations (i.e. a non-market condition) of the Group or another entity in the same group or the market price of the equity instruments of the Group or another entity in the same group (i.e. a market condition); that a performance target can relate either to the performance of the Group as a whole or to some part of it (e.g. a division); and that the period for achieving a performance condition must not extend beyond the end of the related service period. In addition, a share market index target is not a performance condition because it not only reflects the performance of the Group, but also of other entities outside the Group.

IFRS 3 was amended to clarify that contingent consideration should be measured at fair value, irrespective of whether the contingent consideration is a financial instrument within the scope of IFRS 9 or IAS 39. Changes in fair value should be recognized in profit or loss.

The amended IFRS 8 requires an entity to disclose the judgments made by management in applying the aggregation criteria to operating segments, including a description of the operating segments aggregated and the economic indicators assessed in determining whether the operating segments have "similar economic characteristics". The amendment also clarifies that a reconciliation of the total of the reportable segments' assets to the entity's assets should only be provided if the segments' assets are regularly provided to the chief operating decision-maker.

IFRS 13 was amended to clarify that the issuance of IFRS 13 did not remove the ability to measure short-term receivables and payables with no stated interest rate at their invoice amounts without discounting, if the effect of not discounting is immaterial.

IAS 24 was amended to clarify that a management entity providing key management personnel services to the Group is a related party of the Group. Consequently, the Group is required to disclose as related party transactions the amounts incurred for the service paid or payable to the management entity for the provision of key management personnel services. However, disclosure of the components of such compensation is not required.

4) Annual Improvements to IFRSs: 2011-2013 Cycle

Several standards including IFRS 3, IFRS 13 and IAS 40 "Investment Property" were amended in this annual improvement.

IFRS 3 was amended to clarify that IFRS 3 does not apply to the accounting for the formation of all types of joint arrangements in the financial statements of the joint arrangement itself.

The scope in IFRS 13 of the portfolio exception for measuring the fair value of a group of financial assets and financial liabilities on a net basis was amended to clarify that it includes all contracts that are within the scope of, and accounted for in accordance with, IAS 39 or IFRS 9, even if those contracts do not meet the definitions of financial assets or financial liabilities within IAS 32.

IAS 40 was amended to clarify that IAS 40 and IFRS 3 are not mutually exclusive and application of both standards may be required to determine whether the investment property acquired is acquisition of an asset or a business combination.

5) Amendments to IFRS 11 "Accounting for Acquisitions of Interests in Joint Operations "

The amendments require that the acquirer of an interest in a joint operation in which the activity constitutes a business, as defined in IFRS 3, is required to apply all of the principles on business combinations accounting in IFRS 3 and other IFRSs with the exception of those principles that conflict with the guidance in IFRS 11. Accordingly, a joint operator that is an acquirer of such an interest has to:

- measure most identifiable assets and liabilities at fair value;
- expense acquisition-related costs (other than debt or equity issuance costs);
- recognize deferred taxes;
- recognizing any goodwill or bargain purchase gain;
- perform impairment tests for the cash generating units to which goodwill has been allocated;
- disclose information required relevant for business combinations.

The amendments also apply to the formation of a joint operation if, and only if, an existing business is contributed to the joint operation on its formation by one of the parties that participate in the joint operation.

The amendments do not apply on the acquisition of an interest in a joint operation when the parties sharing control are under common control before and after the acquisition.

6) Amendments to IAS 16 and IAS 38 "Clarification of Acceptable Methods of Depreciation and Amortization"

The entity should use appropriate depreciation and amortization method to reflect the pattern in which the future economic benefits of the property, plant and equipment and intangible asset are expected to be consumed by the entity.

The amended IAS 16 "Property, Plant and Equipment" requires that a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate. The amended standard does not provide any exception from this requirement.

The amended IAS 38 "Intangible Assets" requires that there is a rebuttable presumption that an amortization method that is based on revenue that is generated by an activity that includes the use of an intangible asset is not appropriate. This presumption can be overcome only in the following limited circumstances:

- a) in which the intangible asset is expressed as a measure of revenue (for example, the contract that specifies the entity's use of the intangible asset will expire upon achievement of a revenue threshold); or
- b) when it can be demonstrated that revenue and the consumption of the economic benefits of the intangible asset are highly correlated.

An entity should apply the aforementioned amendments prospectively for annual periods beginning on or after the effective date.

Except for the above impact, as of the date the consolidated financial statements were authorized for issue, the Group is continuingly assessing the possible impact that the application of other standards and interpretations will have on the Group's financial position and financial performance, and will disclose the relevant impact when the assessment is complete.

#### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Statement of compliance

The consolidated financial statements have been prepared in accordance with the Requlations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34, "Interim Financial Reporting" as endorsed by the FSC. Disclosure information in the consolidated financial statements is less than those required in complete set of annual financial statements.

b. Basis of Preparation

The consolidated financial statements have been prepared on the historical cost basis except for financial instruments that are measured at fair values. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

c. Classification of current and noncurrent assets and liabilities

Current assets include cash and cash equivalents and those assets held primarily for trading purposes or to be realized within twelve months after the reporting period, unless the asset is to be used for an exchange or to settle a liability, or otherwise remains restricted, at more than twelve months after the reporting period. Current liabilities are obligations incurred for trading purposes or to be settled within twelve months after the reporting period and liabilities that do not have an unconditional right to defer settlement for at least twelve months after the reporting period. Liabilities that are not classified as current are classified as noncurrent.

- d. Basis of Consolidation
  - 1) Principles for preparing consolidated financial statements

The consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company (i.e. its subsidiaries).

All intra-group transactions, balances, income and expenses are eliminated in full upon consolidation.

#### Attribution of total comprehensive income to noncontrolling interests

Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the noncontrolling interests even if this results in the noncontrolling interests having a deficit balance.

#### Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the noncontrolling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the noncontrolling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognized in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and any investment retained in the former subsidiary at its fair value at the date when control is lost and (ii) the assets (including any goodwill) and liabilities and any noncontrolling interests of the former subsidiary at their carrying amounts at the date when control is lost. The Group accounts for all amounts recognized in other comprehensive income in relation to that subsidiary on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

The subsidiaries in the consolidated financial statements

#### e. Foreign currencies

In preparing the financial statements of each group entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions.

At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Exchange differences on monetary items arising from settlement or translation are recognized in profit or loss in the period.

Nonmonetary items measured at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Exchange differences arising on the retranslation of nonmonetary items are included in profit or loss for the period except for exchange differences arising from the retranslation of nonmonetary items in respect of which gains and losses are recognized directly in other comprehensive income, in which case, the exchange differences are also recognized directly in other comprehensive income.

Nonmonetary items that are measured at historical cost in a foreign currency are not retranslated.

For the purposes of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations (including of the subsidiaries, associates, joint ventures or branches operations in other countries or currencies used different with the Company) are translated into New Taiwan dollars using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising are recognized in other comprehensive income (attributed to the owners of the Company and noncontrolling interests as appropriate).

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, a disposal involving loss of joint control over a jointly controlled entity that includes a foreign operation, or a disposal involving loss of significant influence over an associate that includes a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Group are reclassified to profit or loss.

f. Inventories

Inventory write-downs are made by item, except where it may be appropriate to group similar or related items. Net realizable value is the estimated selling price of inventories less all estimated costs of completion and costs necessary to make the sale. Inventories are recorded at weighted-average cost on the balance sheet date.

#### g. Investments in associates and jointly controlled entities

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Joint venture arrangements that involve the establishment of a separate entity in which venturers have joint control over the economic activity of the entity are referred to as jointly controlled entities.

The results and assets and liabilities of associates and jointly controlled entities are incorporated in these consolidated financial statements using the equity method of accounting. Under the equity method, an investment in an associate and jointly controlled entity is initially recognized at cost and adjusted thereafter to recognize the Group's share of the profit or loss and other comprehensive income of the associate and jointly controlled entity. The Group also recognizes the changes in the Group's share of equity of associates and jointly controlled entity.

When the Group subscribes for additional new shares of the associate and jointly controlled entity at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment differs from the amount of the Group's proportionate interest in the associate and jointly controlled entity. The Group records such a difference as an adjustment to investments with the corresponding amount charged or credited to capital surplus. If the Group's ownership interest is reduced due to the additional subscription of the new shares of associate and jointly controlled entity, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate and jointly controlled entity is reclassified to profit or loss on the same basis as would be required if the investee had directly disposed of the related assets or liabilities. When the adjustment should be debited to capital surplus, but the capital surplus recognized from investments accounted for by the equity method is insufficient, the shortage is debited to retained earnings.

When the Group's share of losses of an associate and jointly controlled entity equals or exceeds its interest in that associate and jointly controlled entity (which includes any carrying amount of the investment accounted for by the equity method and long-term interests that, in substance, form part of the Group's net investment in the associate and jointly controlled entity), the Group discontinues recognizing its share of further losses. Additional losses and liabilities are recognized only to the extent that the Group has incurred legal obligations, or constructive obligations, or made payments on behalf of that associate and jointly controlled entity.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets and liabilities of an associate and jointly controlled entity recognized at the date of acquisition is recognized as goodwill, which is included within the carrying amount of the investment and is not amortized. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition, after reassessment, is recognized immediately in profit or loss.

The entire carrying amount of the investment (including goodwill) is tested for impairment as a single asset by comparing its recoverable amount with its carrying amount. Any impairment loss recognized forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date on which it ceases to have significant influence and joint control. Any retained investment is measured at fair value at that date and the fair value is regarded as its fair value on initial recognition as a financial asset. The difference between the previous carrying amount of the associate (and the jointly controlled entity attributable to the retained interest and its fair value is included in the determination of the gain or loss on disposal of the associate and the jointly controlled entity. The Group accounts for all amounts previously recognized in other comprehensive income in relation to that associate and the jointly controlled entity on the same basis as would be required if that associate had directly disposed of the related assets or liabilities.

When a group entity transacts with its associate (and jointly controlled entity, profits and losses resulting from the transactions with the associate are recognized in the Group' consolidated financial statements only to the extent of interests in the associate and the jointly controlled entity that are not related to the Group.

h. Property, Plant and Equipment

Property, plant and equipment are tangible items that are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes, and are expected to be used during more than one period. Property, plant and equipment are stated at cost, less subsequent accumulated depreciation and subsequent accumulated impairment loss when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognized impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalized in accordance with IAS 23 "Borrowing Costs". Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognized so as to write off the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis in accordance with IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors".

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

i. Investment properties

Investment properties are properties held to earn rentals or for capital appreciation.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at cost less accumulated depreciation and accumulated impairment loss. Depreciation is recognized using the straight-line method.

Any gain or loss arising on derecognition of the property is calculated as the difference between the net disposal proceeds and the carrying amount of the asset and is included in profit or loss in the period in which the property is derecognized.

j. Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment loss.

#### k. Intangible assets

1) Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are initially measured at cost and subsequently measured at cost less accumulated amortization and accumulated impairment loss. Amortization is recognized on a straight-line basis. The estimated useful life, residual value, and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. The residual value of an intangible asset with a finite useful life shall be assumed to be zero unless the Group expects to dispose of the intangible asset before the end of its economic life. Intangible assets with indefinite useful lives that are acquired separately are measured at cost less accumulated impairment loss.

2) Derecognition of intangible assets

Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in profit or loss when the asset is derecognized.

1. Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets, excluding goodwill, to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Corporate assets are allocated to the individual cash-generating units on a reasonable and consistent basis of allocation/Corporate assets are allocated to the smallest group of cash-generating units on a reasonable and consistent allocation basis.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount.

When an impairment loss is subsequently reversed, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but only to the extent of the carrying amount that would have been determined had no impairment loss been recognized for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized in profit or loss.

m. Financial instruments

Financial assets and financial liabilities are recognized when a group entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss.

1) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

a) Measurement category

Financial assets are classified into the following categories: Financial assets at fair value through profit or loss, available-for-sale financial assets, and loans and receivables.

i Financial assets at fair value through profit or loss

Financial assets are classified as at fair value through profit or loss when the financial asset is either held for trading or it is designated as at fair value through profit or loss.

A financial asset may be designated as at fair value through profit or loss upon initial recognition if:

i) Such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or

- ii) The financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- iii) The contract contains one or more embedded derivatives so that the entire hybrid (combined) contract can be designated as at fair value through profit or loss.

Financial assets at fair value through profit or loss are stated at fair value, with any gains or losses arising on remeasurement recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any dividend or interest earned on the financial asset.

ii. Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated as available-for-sale or are not classified as loans and receivables, held-to-maturity investments or financial assets at fair value through profit or loss.

Available-for-sale financial assets are measured at fair value. Changes in the carrying amount of available-for-sale monetary financial assets relating to changes in foreign currency exchange rates, interest income calculated using the effective interest method and dividends on available-for-sale equity investments are recognized in profit or loss. Other changes in the carrying amount of available-for-sale financial assets are recognized in other comprehensive income and will be reclassified to profit or loss when the investment is disposed of or is determined to be impaired.

Dividends on available-for-sale equity instruments are recognized in profit or loss when the Group's right to receive the dividends is established.

Available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity investments are measured at cost less any identified impairment loss at the end of each reporting period and are presented in a separate line item as financial assets carried at cost. If, in a subsequent period, the fair value of the financial assets can be reliably measured, the financial assets are remeasured at fair value. The difference between carrying amount and fair value is recognized in profit or loss or other comprehensive income on financial assets. Any impairment losses are recognized in profit and loss.

iii. Loans and receivables

Loans and receivables (including notes and trade receivables, other receivables, cash and cash equivalent, debt investments with no active market, and other receivables) are measured at amortized cost using the effective interest method, less any impairment, except for short-term receivables when the effect of discounting is immaterial.

Cash equivalent includes time deposits and bonds with repurchase agreements with original maturities from the date of acquisition, highly liquid, readily convertible to a known amount of cash and be subject to an insignificant risk of changes in value. These cash equivalents are held for the purpose of meeting short-term cash commitments.

b) Impairment of financial assets

Financial assets, other than those at fair value through profit or loss, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be

impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

For financial assets carried at amortized cost, such as trade receivables and other receivables, assets are assessed for impairment on a collective basis even if they were assessed not to be impaired individually. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortized cost, the amount of the impairment loss recognized is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets measured at amortized cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

For available-for-sale equity investments, a significant or prolonged decline in the fair value of the security below its cost is considered to be objective evidence of impairment.

For all other financial assets, objective evidence of impairment could include significant financial difficulty of the issuer or counterparty, breach of contract, such as a default or delinquency in interest or principal payments, it becoming probable that the borrower will enter bankruptcy or financial re-organization, or the disappearance of an active market for that financial asset because of financial difficulties.

When an available-for-sale financial asset is considered to be impaired, cumulative gains or losses previously recognized in other comprehensive income are reclassified to profit or loss in the period.

In respect of available-for-sale equity securities, impairment loss previously recognized in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss is recognized in other comprehensive income. In respect of available-for-sale debt securities, the impairment loss is subsequently reversed through profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

For financial assets that are carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables and other receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable and other receivables are considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss except for uncollectible trade receivables that are written off against the allowance account.

c) Derecognition of financial assets

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income is recognized in profit or loss.

2) Equity instruments and Financial liabilities

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

a) Equity instruments

Equity instruments issued by a group entity are recognized at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognized in and deducted directly from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

- b) Financial liabilities
  - i Subsequent measurement

All the financial liabilities are measured at amortized cost using the effective interest method:

i) Derecognition of financial liabilities

The difference between the carrying amount of the financial liability derecognized and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

n. Provisions

Provisions, including those arising from the contractual obligation specified in the service concession arrangement to maintain or restore the infrastructure before it is handed over to the grantor, are measured at the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

o. Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances. Sales returns are recognized at the time of sale provided the seller can reliably estimate future returns and recognizes a liability for returns based on previous experience and other relevant factors.

#### Sale of goods

Revenue from the sale of goods is recognized when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- 1) The Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- 2) The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- 3) The amount of revenue can be measured reliably;
- 4) It is probable that the economic benefits associated with the transaction will flow to the Group; and
- 5) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

The Group does not recognize sales revenue on materials delivered to subcontractors because this delivery does not involve a transfer of risks and rewards of materials ownership.

#### Dividend and interest income

Dividend income from investments is recognized when the shareholder's right to receive payment has been established provided that it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably.

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

p. Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

1) The Group as lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease unless.

2) The Group as lessee

Operating lease payments are recognized as an expense on a straight-line basis over the lease term.

q. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in profit or loss in the period in which they are incurred other than stated above.

#### r. Government grants

Government grants are not recognized until there is reasonable assurance that the Group will comply with the conditions attached to them and that the grants will be received.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Group recognizes as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire noncurrent assets are recognized as a deduction from the carrying amount of the relevant asset and recognized in profit or loss over the useful lives of the related assets.

s. Retirement benefit costs

Payments to defined contribution retirement benefit plans are recognized as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at the end of each reporting period. Actuarial gains and losses on the defined benefit obligation are recognized immediately in other comprehensive income. Past service cost is recognized immediately to the extent that the benefits are already vested, and otherwise is amortized on a straight-line basis over the average period until the benefits become vested.

The retirement benefit obligation recognized in the consolidated balance sheets represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, and as reduced by the fair value of plan assets. Any asset resulting from this calculation is limited to the unrecognized past service cost, plus the present value of available refunds and reductions in future contributions to the plan.

Curtailment or settlement gains or losses on the defined benefit plan are recognized when the curtailment or settlement occurs.

The retirement benefit obligation recognized in the consolidated balance sheets represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, and as reduced by the fair value of plan assets. Any asset resulting from this calculation is limited to the unrecognized past service cost, plus the present value of available refunds and reductions in future contributions to the plan.

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-time events.

t. Share-based payment arrangements

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the employee share options is expensed on a straight-line basis over the vesting period, based on the Group's estimate of employee share options that will eventually vest, with a corresponding increase in capital surplus - employee share options. The fair value determined at the grant date of the employee share options is recognized as an expense in full at the grant date when the share options granted vest immediately.

At the end of each reporting period, The Group revises its estimate of the number of employee share options expected to vest. The impact of the revision of the original estimates is recognized in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the capital surplus - employee share options.

u. Income taxes

Income tax expense is the sum of the tax currently payable and deferred tax. Interim period income taxes are assessed on an annual basis and calculated by applying to an interim period's pre-tax income the tax rate that would be applicable to expected total annual earnings.

## 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

#### Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

a. Estimated impairment of tangible assets and intangible assets (excluding goodwill)

The Group relies on subjective judgments and depends on usage patterns and industry characteristics to determine cash flows, asset useful lives, and future revenues and expenses. Any change in the operating environment and corporate strategy may cause significant impairment loss.

For the three months than ended March 31, 2014 and 2013, the Group did not recognize any impairment loss of tangible assets and intangible assets.

b. Estimated impairment of trade receivables

When there is objective evidence of impairment loss, the Group takes into consideration the estimation of future cash flows. The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. Where the actual future cash flows are less than expected, a material impairment loss may arise.

As of March 31, 2014, December 31, 2013 and March 31, 2013, the carrying amount of trade receivables was \$1,355,459 thousand, \$1,535,944 thousand and \$1,150,953 thousand, respectively (after deducting allowance of \$0, \$0 and \$48,443 thousand, respectively).

c. Income taxes

As of March 31, 2014 and 2013 and December 31, 2013, the carrying amount of deferred tax assets in relation to unused tax losses was \$20,898 thousand, 92,480 thousand and \$20,898 thousand, respectively. As of March 31, 2014 and 2013, and December 31, 2013, no deferred tax asset has been

recognized on tax losses of \$5,870,787 thousand, \$3,960,552 thousand, and \$5,870,787 thousand thousand, respectively, due to the unpredictability of future profit streams. The realizability of the deferred tax asset mainly depends on whether sufficient future profits or taxable temporary differences will be available. In cases where the actual future profits generated are less than expected, a material reversal of deferred tax assets may arise, which would be recognized in profit or loss for the period in which such a reversal takes place.

d. Write-down of inventory

Net realizable value of inventory is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. The estimation of net realizable value was based on current market conditions and the historical experience of selling products of a similar nature. Changes in market conditions may have a material impact on the estimation of net realizable value.

e. Impairment of investment in the associate

The Group immediately recognizes impairment loss on its net investment in the associate when there is any indication that the investment may be impaired and the carrying amount may not be recoverable. The Group's management evaluates the impairment based on the estimated future cash flow expected to be generated by the associate, including growth rate of sale and capacity of production facilities estimated by the associate's management. The Group also takes into consideration the market conditions and industry development to evaluate the appropriateness of assumptions.

#### 6. CASH AND CASH EQUIVALENTS

	March 31, 2014	December 31, 2013	March 31, 2013	
Cash on hand	\$ 4,776	\$ 4,232	\$ 6,015	
Checking accounts and demand deposits	979,398	1,609,918	1,106,756	
Cash equivalent deposits in banks	2,362,566	2,662,716	3,196,212	
Repurchase agreements collateralized by bonds	55,716	54,529	54,158	
	\$ 3,402,456	\$ 4,331,395	\$ 4,363,141	

The market rate intervals of cash in bank and bank overdrafts at the end of the reporting period were as follows:

	March 31,	December 31,	March 31,
	2014	2013	2013
Bank balance	0.02%-3.455%	0.02%-3.3%	0.01%-3.25%
Repurchase agreement collateralized by bonds	1.0%-1.625%	1.0%-1.625%	1.625%-4.625%

#### 7. FINANCIAL ASSETS AND LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

	March 31, 2014	December 31, 2013	March 31, 2013
Financial assets held for trading			
Nonderivative financial assets Corporate bonds of domestic listed stocks	<u>\$ 8,027</u>	<u>\$    7,994</u>	<u>\$ 14,403</u>

#### 8. AVAILABLE-FOR-SALE FINANCIAL ASSETS

	March 31, 2014	December 31, 2013	March 31, 2013
Domestic investments			
<ul><li>Mutual funds</li><li>Quoted shares</li></ul>	\$ 1,130,787 1,209,553	\$ 1,125,889 1,035,887	\$ 1,047,624 648,729
Foreign investments			
- Quoted shares	7,984	7,456	
	<u>\$ 2,348,324</u>	<u>\$ 2,169,232</u>	<u>\$ 1,696,353</u>
Current Noncurrent	\$ 1,166,560 <u>1,181,764</u>	\$ 1,150,505 1,018,727	\$ 1,062,416 <u>633,937</u>
	<u>\$ 2,348,324</u>	<u>\$ 2,169,232</u>	<u>\$ 1,696,353</u>

For the three months ended March 31, 2014 and 2013, the Group recognized impairment losses of \$0 and \$1,633 thousand, respectively.

#### 9. DEBT INVESTMENTS WITH NO ACTIVE MARKET

	March 31,	December 31,	March 31,
	2014	2013	2013
Fixed income fund	<u>\$ 14,903</u>	<u>\$                                    </u>	<u>\$ 14,520</u>

In March 2014, and November 2012, the Group bought a fixed-income Germany fund established for meeting certain building needs. The fund price is US500 thousand and the effective interest rate of fund is 8%.

#### 10. FINANCIAL ASSETS MEASURED AT COST

	March 31, 2014	December 31, 2013	March 31, 2013
Domestic unlisted common shares	<u>\$ 308,432</u>	<u>\$ 311,448</u>	<u>\$ 223,893</u>
Classfied as available for sale	<u>\$ 308,432</u>	<u>\$ 311,448</u>	<u>\$ 223,893</u>

Management believed that the above unlisted equity investments held by the Group, whose fair value cannot be reliably measured due to the range of reasonable fair value estimates was so significant; therefore they were measured at cost less impairment at the end of reporting period.

The Group recognized disposal gain of \$0 thousand and\$1,398 thousand as of March 31, 2014 and 2013, respectively.

#### 11. NOTES AND ACCOUNTS RECEIVABLE, NET

	March 31, 2014	December 31, 2013	March 31, 2013
Notes receivable	<u>\$ 33</u>	<u>\$ 157</u>	<u>\$ 36</u>
Accounts receivable Accounts receivable - related parties Allowance for doubtful receivables	1,333,215 22,244 	1,524,862 11,082  1,535,944	1,141,917 57,479 <u>(48,443</u> ) <u>1,150,953</u>
	<u>\$ 1,355,492</u>	<u>\$ 1,536,101</u>	<u>\$ 1,150,989</u>

#### Accounts receivable

The average credit period on sales of goods was 30-90 days without interest. In determining the recoverability of a trade receivable, the Group considered any change in the credit quality of the trade receivable since the date credit was initially granted to the end of the reporting period. Allowance for impairment loss were recognized against trade receivables based on estimated irrecoverable amounts determined by reference to past default experience of the counterparties and an analysis of their current financial position.

Of the trade receivables balance (see below for aged analysis) that are past due at the end of the reporting period, the Group had not recognized an allowance for impaired notes receivable and trade receivables for \$145,467 thousand, \$116,716 thousand and \$582 thousand as of March 31, 2014, December 31, 2013 and March 31, 2013, respectively, because there had not been a significant change in credit quality and the amounts were still considered recoverable. The Group did not hold any collateral or other credit enhancements over these balances nor did it have a legal right to offset against any amounts owed by the Group to the counterparty. As of May 14, 2014, the above trade receivables of March 31, 2014 that are past due but not impaired had received 132,316 thousand.

Age of receivables that are past due but not impaired was as follow:

	March 31, 2014	December 31, 2013	March 31, 2013
Less than 60 days 61-90 days 91-120 days	\$ 52,074 93,393	\$ 116,716 - -	\$ 511 4 67
	<u>\$ 145,467</u>	<u>\$ 116,716</u>	<u>\$ 582</u>

Above analysis was based on the past due date.

Movements in the allowance for impairment loss recognized on notes receivable and trade receivables were as follows:

	Individually Impaired	Collectively Impaired	Total
Balance at January, 2013 Less: Amounts written off during the period as uncollectible	\$ 48,411 -	\$ - -	\$ 48,411 -
Foreign exchange translation gains	32		32
Balance at March 31, 2013	<u>\$ 48,443</u>	<u>\$ -</u>	<u>\$ 48,443</u>

#### **12. INVENTORIES**

	March 31,	December 31,	March 31,
	2014	2013	2013
Finished goods	\$ 513,067	\$ 382,269	\$ 530,966
Work in progress	522,372	369,696	824,685
Raw materials	205,592	<u>170,252</u>	<u>187,266</u>
	<u>\$ 1,241,031</u>	<u>\$ 922,217</u>	<u>\$ 1,542,917</u>

The costs of inventories recognized as cost of goods sold in the three months ended March 31, 2014 and 2013 were \$1,033,538 thousand and \$1,051,226 thousand, respectively.

	For the Three Months Ended March 31		
	2014	2013	
Write-downs of inventories Income from scrap sales	\$ 21,762 (96)	\$ 18,441 (337)	
	<u>\$ 21,666</u>	<u>\$ 18,104</u>	

## 13. INVESTMENTS ACCOUNTED FOR USING THE EQUITY METHOD

	March 31, 2014	December 31, 2013	March 31, 2013
Investments in associates Investments in jointly controlled entities	\$ 1,078,874 124,493	\$ 1,024,451 	\$ 1,620,712 <u>188,076</u>
	<u>\$ 1,203,367</u>	<u>\$ 1,161,455</u>	<u>\$ 1,808,788</u>
a. Investments in associates			
	March 31, 2014	December 31, 2013	March 31, 2013
Listed companies Orise Technology, Co., Ltd. Giantplus Technology Co., Ltd. Unlisted companies HT mMobile Inc.	\$ 1,078,874 	\$ 1,024,451 	\$ 938,368 682,344
	\$ 1.078.874	\$ 1.024.451	\$ 1.620.712

As the end of the reporting period, the proportion of ownership and voting rights in associates held by the Group were as follows:

Associate	March 31, 2014	December 31, 2013	March 31, 2013
Orise Technology, Co., Ltd.	34%	34%	35%
Giantplus Technology Co., Ltd	-	-	19%
HT mMobile Inc.	-	-	-

The Group started to exercise significant influence over Giantplus Technology Co., Ltd on December 3, 2012, so the Group transferred this investment from available-for-sale financial assets to investments in associates.

On April 7, 2014, the Company's board of the directors approved the merger of Orise Technology ("Orise") and FocalTech-Systems ("FocalTech") Technology, with FocalTech as the survivor entity, and the merger and share transfer will take effect on January 2, 2015. Orise will issue new common shares, and Focal Tech will swap 1 common share for 4.8 common shares of Orise. After the transaction, the Company's equity interest in Orise will decrease from 34% to 12%.

On March 15, 2013, the Company's board of the directors resolved to participate in the tender offer made by Chunghwa Picture Tubes Ltd ( "Chunghwa") to acquire shares in Giantplus Technology Co. ("Giantplus"). The Company planned to sell 77,834 thousand shares of Giantplus for cash of NT\$4.03 per share and 0.72 common share of Tatung Co. for every share of Giantplus. As of April 12, 2013, the expiration date of the acquisition, the Company had disposed of 64,020 thousand shares and recognized a gain on disposal of \$42,474 thousand. On April 10, 2013, the Company's board of directors sold 6,818 thousand shares more of Giantplus to Chunghwa for cash of NT\$9.3 per share and recognized a gain on disposal of \$5,648 thousand.

On February 29, 2012, HT mMobile Inc.'s (HT) board of directors approved a downsizing of its operations because of (a) the termination of merger negotiations with another company and (b) the resignation of high-level employees of the research and development (R&D) department, which have hampered product R&D. On the basis of a resolution passed in a meeting of HT's board of directors, the Group recognized an investment loss on HT, as well as the reduction of the carrying value of this investment to zero. The Group also recognized an impairment loss of \$405,612 thousand and \$1,466 thousand on other receivable from HT mMobile Inc for three months ended March 31,2012 and 2013. The Group reversal impairment loss of \$5,203 thousand for three months ended March 31, 2013. HT's third interim board of directors also approved a plan for HT to undergo liquidation, and it has completed liquidation in March 20, 2013.

The fair values of publicly traded investments accounted for using the equity method were based on the closing prices of those investments at the balance sheet date, as follows:

Name of Associate	March 31,	December 31,	March 31,
	2014	2013	2013
Orise Technology, Co., Ltd. Giantplus Technology Co., Ltd	<u>\$ 2,624,457</u>	<u>\$ 2,142,906</u>	<u>\$2,282,556</u> \$755,941

The summarized financial information in respect of the Group's associates is set out below:

	March 31,	December 31,	March 31,
	2014	2013	2013
Total assets	<u>\$ 6,537,075</u>	<u>\$ 6,314,221</u>	<u>\$ 18,087,331</u>
Total liabilities	<u>\$ 3,458,316</u>	<u>\$ 3,392,196</u>	<u>\$ 8,122,363</u>

		For the Three months Ended March 31		
	2014	2013		
Revenue Profit for the period Comprehensive income Group's share of profits of associates	\$ 2,611,572 \$ 147,032 \$ 147,050 \$ 50,509	<u>\$ 4,191,600</u> <u>\$ (118,986)</u> <u>\$ (70,105)</u> <u>\$ (10,032)</u>		

The amounts of investments in jointly controlled entities pledged as collateral for bank loans were disclosed in Note 35.

#### b. Investments in jointly controlled entities

The Company signed an investment agreement with Silicon Integrated Systems Corp. on December 19, 2012. Both sides agreed to increase capital in Sunplus Core Inc. (renamed S2-Tek Inc.), which researches, develops, designs, and sells TV integrated circuits (ICs). The investment agreement was registered on January 21, 2013.

The Company had 99.98% equity in Sunplus Core Inc. before the investment agreement, but when the Company later subscribed for Sunplus Core Inc.'s additional new shares at a percentage different from its existing ownership percentage, the Company's equity decreased to 51.25%, and the carrying amount of the Company's investment also declined. When Sunplus Core Inc. changed its name to S2-Tek Inc. on January 21, 2013, a new investment agreement was made, which stated that the Company no longer had control over S2-Tek Inc. The Company continued to recognize this investment by the equity method.

The interests in the jointly controlled entities which were accounted for using the equity method are summarized as follows:

	March 31, 2014	December 31, 2013	March 31, 2013	
Current assets	<u>\$ 317,323</u>	<u>\$ 453,707</u>	<u>\$ 424,590</u>	
Noncurrent assets	<u>\$ 18,938</u>	<u>\$ 22,474</u>	<u>\$ 1,751</u>	
Current liabilities	<u>\$ 92,750</u>	<u>\$ 208,257</u>	<u>\$ 59,389</u>	
Noncurrent liabilities	<u>\$                                    </u>	<u>\$                                    </u>	<u>\$</u>	

	For the Three Months Ended March 31		
	2014	2013	
Sales Costs of sales Operating expenses Nonoperating income and expenses Income tax expense Share of profit or loss of associates and joint ventures Share of comprehensive income of associates and joint ventures	\$ 136,258 \$ 86,548 \$ 74,666 \$ 543 \$ \$ (12,511) \$ (12,511)	$ \frac{\$ 34,413}{\$ 27,712} \\ \frac{\$ 40,147}{\$ 429} \\ \frac{\$ (16,922)}{\$ (16,922)} $	

The financial statements used as basis for calculating the Group's share of the associates' profit and other comprehensive income for the three months ended March 31, 2013 had all been unreviewed, except those of Orise Technology, Co., Ltd.

The above items of property, plant and equipment were depreciated on a straight-line basis at the following rates per annum:

Buildings	11-56 years
Auxiliary equipment	4-20 years
Machinery and equipment	1-10 years
Testing equipment	1-5 years
Transportation equipment	4-10 years
Furniture and fixtures	2-5 years
Leasehold improvements	2-11 years
Other equipment	3-10 years

Refer to Note 35 for the carrying amount of property, plant and equipment that had been pledged by the Group to secure borrowings granted to the Group.

## **15. INVESTMENT PROPERTIES**

	For the Three Months Ended March 31			
	2014	2013		
Cost				
Balance at January 1 Transfer (for use) to invest during the period Effect of foreign currency exchange differences	\$ 456,827 (1,885)	\$ 398,499 (49,403) <u>16,021</u>		
Balance at March 31	<u>\$ 454,942</u>	<u>\$ 365,117</u>		
Accumulated depreciation Balance at January 1 Depreciation expense Transfer (for use) to invest during the period Effect of foreign currency exchange differences Balance at March 31	\$ 163,758 4,634 	\$ 123,658 3,140 (13,999) <u>5,045</u> 117,844		
	<u>\$ 287,253</u>	<u>\$ 247,273</u>		

The investment properties held by the Group were depreciated over their useful lives of 50 years, using the straight-line method.

The fair value of the investment properties had been determined on the basis of a valuation carried out on March 31, 2013 by the Suzhou Feng-Zheng PingGu Firm, independent qualified professional valuers not connected to the Group.

	March 31, 2014	December 31, 2013	March 31, 2013
Fair value	\$ 378,894	\$ 378,894	\$ 365,155
Discount rate	87.33%	87.33%	89.33%

For the investment properties not valued by independent valuators but valued by the Group, the Group determined that the fair values reported as of December 31, 2013 and January 1, 2013 were still valid as of March 31, 2014 and 2013.

The rental income generated for the three months ended March 31, 2014 and 2013 was \$35,363 thousand and \$31,140 thousand, respectively.

Un-secured bank borrowing	2015.2.28	Repayable semiannually from February 2012	90,000	105,000	120,000
			<u>\$ 1,693,285</u>	<u>\$ 1,643,063</u>	<u>\$ 1,913,505</u>
Current Noncurrent			\$ 861,716 831,569	\$ 938,447 	\$ 741,198 <u>1,172,307</u>
			<u>\$ 1,693,285</u>	<u>\$ 1,643,063</u>	<u>\$ 1,913,505</u> (Concluded)

Under the loan contracts, the Group provided buildings and shares of Giantplus Technology Co., Ltd. and Orise Technology Co., Ltd. as collaterals for the above loans (Note 35).

The effective rate borrowings as of March 31,2014, December 31, 2014 and March 31,2013 were 1.64%-2.558%, 1.64%-2.54% and 1.94%-2.56%.

The loan contracts require the Group to maintain certain financial ratios, such as debt ratio and current ratio as well as a restriction on net tangible assets. However, the Group's not being able to meet would not be deemed to be a violation of the contracts.

## **19. TRADE PAYABLES**

	March 31,	December 31,	March 31,	
	2014	2013	2013	
Payable - operating	<u>\$ 1,015,873</u>	<u>\$ 823,034</u>	<u>\$ 813,864</u>	

The average credit period on purchases of certain goods was 30-60 days. The Group has financial risk management policies in place to ensure that all payables are paid within the pre-agreed credit terms.

#### **20. PROVISIONS**

	March 31,	December 31,	March 31,
	2014	2013	2013
Customer returns and rebates	<u>\$ 25,299</u>	<u>\$ 23,915</u>	<u>\$ 16,407</u>

The provision of customer returns and rebates was based on historical experience, management's judgments and other known reasons estimated product returns and rebates may occur in the year. The provision was recognized as a reduction of operating income in the periods of the related goods sold.

## **21. OTHER LIABILITIES**

	March 31, 2014	December 31, 2013	March 31, 2013
Other payables			
Salaries and bonus Employee bonuses and compensation payable to directors and supervisions Labor/health insurance Payable for royalties Professional service fees Payable for purchase of equipment Others	\$ 182,253 74,495 29,817 15,440 7,534 5,056 203,631	\$ 370,405 74,495 33,646 10,639 8,542 51,249 <u>155,948</u>	\$ 192,390 1,543 32,942 16,234 6,664 132,262 209,334

Noncurrent			
- Other liability - Deferred revenue	\$ 1,299 80,162 <u>\$ 81,461</u>	\$ 889 <u>81,056</u> <u>\$ 81,945</u>	\$ 1,079 4,466 <u>\$ 5,545</u>

## 22. RETIREMENT BENEFIT PLANS

Employee benefit expenses in respect of the Group's defined benefit retirement plans were calculated using the actuarially determined pension cost discount rate as of December 31, 2013 and 2012, and recognized in the following line items in their respective periods:

	For the Three Months Ended March 31		
	2014	2013	
Operating cost Marketing expenses Administration expenses Research and development expenses	\$ <u>152</u> <u>\$92</u> <u>\$127</u> <u>\$755</u>	\$ <u>171</u> <u>\$97</u> <u>\$220</u> <u>\$813</u>	

## 23. EQUITY

#### Share capital

#### Common shares:

	March 31,	December 31,	March 31,
	2014	2013	2013
Numbers of shares authorized (in thousands)	<u>1,200,000</u>	<u>1,200,000</u>	<u>1,200,000</u>
Shares authorized	<u>\$12,000,000</u>	<u>\$12,000,000</u>	<u>\$12,000,000</u>

Fully paid common ordinary shares, which have a par value of \$10, carry one vote per share and carry a right to dividends.

80,000 thousand shares of the Group's shares authorized were reserved for the issuance of convertible bonds and employee share options.

	March 31, 2014	December 31, 2013	March 31, 2013
Number of shares issued and fully paid (in thousands)	<u> </u>	596,910	596,910
Shares issued	<u>\$   5,919,949</u>	<u>\$ 5,969,099</u>	<u>\$ 5,969,099</u>

## Capital surplus

A reconciliation of the carrying amount at the beginning and at the end of three months ended 2014 and 2013, for each class of capital surplus was as follows:

	Share Premium	Treasury Share Transactions	Consolidation Excess and Other	Total
Balance at January 1, 2013 Others	\$ 709,215	\$    71,228 	\$ 158,681 (1,360)	\$ 939,124 (1,360)
Balance at March 31, 2013	<u>\$ 709,215</u>	<u>\$ 71,228</u>	<u>\$ 157,321</u>	<u>\$ 937,764</u>
Balance at January 1, 2014 Others	\$ 709,215 (5,839)	\$ 71,228 (36,846)	\$ 169,736 <u>5,034</u>	\$ 950,179 (37,651)
Balance at March 31, 2014	<u>\$ 703,376</u>	<u>\$ 34,382</u>	<u>\$ 174,770</u>	<u>\$ 912,528</u>

The premium from shares issued in excess of par (share premium from issuance of common shares, conversion of bonds and treasury share transactions) may be used to offset a deficit; in addition, when the Group has no deficit, such capital surplus may be distributed as cash dividends or transferred to capital.

The capital surplus from long-term investments, employee share options and share warrants may not be used for any purpose.

Sunplus' Articles of Incorporation provide that the following should be appropriated from annual net income less any accumulated deficit: (a) 10% as legal reserve; and (b) special reserve equivalent to the debit balance of any accounts shown in the shareholders' equity section of the balance sheet, other than deficit. The distribution of any remaining earnings will be as follows:

- (i) up to 6% of paid-in capital as dividends; and
- (ii) 1.5% as remuneration to directors and supervisors and at least 1% as bonus to employees. The employees may include, with the approval of Sunplus' board of directors, those of Sunplus' subsidiaries.
- (iii)Under an approved shareholders' resolution, the current year's net income less all the foregoing appropriations and distributions plus the inappropriate prior years' earnings may be distributed as additional dividends.
- (iv)Sunplus' policy is that cash dividends should be at least 10% of total dividends distributed. However, cash dividends will not be distributed if these dividends are less than NT\$0.5 per share.

Under regulations promulgated by the Securities and Futures Bureau, a special reserve equivalent to the debit balance of any account shown in the shareholders' equity section of the balance sheet (for example, unrealized loss on financial assets and cumulative translation adjustments) should be allocated from inappropriate retained earnings).

Sunplus should estimate the bonus to employees and remuneration to directors and supervisors based on related laws and past experience. However, for working capital retention, the bonus to employees and remuneration to directors and supervisors was zero for the three months ended March 31, 2014 and 2013. Thus, the Group did not accrue any bonus and remuneration expenses. Material differences between earlier estimates of bonuses and remuneration and the amounts subsequently proposed by the Board of Directors are adjusted for in the year of the proposal. If the actual amounts approved by the shareholders differ from the board of directors' proposed amounts, the differences are recorded in the year of shareholders' resolution as a change in accounting estimate.

If bonus shares are resolved to be distributed to employees, the number of shares is determined by dividing the amount of bonus by the closing price (after considering the effect of cash and stock dividends) of the shares of the day preceding the shareholders' meeting.

The Company appropriates or reverses a special reserve in accordance with Rule No. 1010012865 and Rule No. 1010047490 issued by the FSC and the directive entitled "Questions and Answers on Special Reserves Appropriated Following the Adoption of IFRSs". Distributions can be made out of any subsequent reversal of the debit to other equity items.

Appropriation of earnings to legal reserve shall be made until the legal reserve equals Sunplus's paid-in capital. Legal reserve may be used to offset deficit. If Sunplus has no deficit and the legal reserve has exceeded 25% of Sunplus's paid-in capital, the excess may be transferred to capital or distributed in cash.

Except for non-ROC resident shareholders, all shareholders receiving the dividends are allowed a tax credit equal to their proportionate share of the income tax paid by Sunplus.

The appropriations from the 2013 and 2012 earnings were approved at the shareholders' meetings on March 24, 2014 and June 11, 2013, respectively. The appropriations, including dividends, were as follows:

	For Ye	For Year 2013		ar 2012
	Appropriation of Earnings	Dividends Per Share (NT\$)	Appropriation of Earnings	Dividends Per Share (NT\$)
Legal reserve	\$ 119,147	-	\$ 516,496	-
Special reserve	(8,116)	-	(160,473)	-

The appropriation of earnings for 2013 to the resolution of the shareholders' meeting will hold on June 10, 2014.

The information on the appropriation of bonuses to employees, directors and supervisors is available on the Market Observation Post System website of the Taiwan Stock Exchange.

Other equity items

Foreign currency translation reserve:

	For Three Months Ended March 31		
	2014	2013	
Balance at January 1 Exchange differences arising on translating the foreign operations	\$    27,108 (15,571)	\$ (84,462) 49,258	
Balance at March 31	<u>\$ 11,537</u>	<u>\$ (35,204</u> )	

Exchange differences relating to the translation of the results and net assets of the Group's foreign operations from their functional currencies to the Group's presentation currency (i.e. New Taiwan dollars) were recognized directly in other comprehensive income and accumulated in the foreign currency translation reserve.

Unrealized gain/loss from available-for-sale financial assets:

	For Three Months Ended March 3			ed March 31
		2014		2013
Balance at January 1	\$	172,562	\$	188,110

March 31, 2013			
Lin Shin Investment Co., Ltd	3,560	<u>\$ 63,401</u>	<u>\$ 32,681</u>

Under the Securities and Exchange Act, Sunplus shall neither pledge treasury shares nor exercise shareholders' rights on these shares, such as rights to dividends and to vote. Sunplus's board of directors resolve to write off all of the buyback tresury shares, 4,915 thousand shares. The subsidiaries holding treasury shares, however, retain shareholders' rights, except the rights to participate in any share issuance for cash and to vote.

#### Global depositary receipts

In March 2001, Sunplus issued 20,000 thousand units of global depositary receipts (GDRs), representing 40,000 thousand common shares that consisted of newly issued and originally outstanding shares. The GDRs are listed on the London Stock Exchange (code: SUPD) with an issuance price of US\$9.57 per unit. As of March 31, 2014, the outstanding 176 thousand units of GDRs represented 352 thousand common shares.

## 26. INCOME TAXES

#### Integrated income tax

The major components of tax expense (income) were as follows:

	Years Ended March 31	
	2014	2013
Current tax		
Current period	\$ (1,936)	\$ 4,731
Prior periods	-	(31,203)
Others	1,801	
	(135)	(26,472)
Deferred tax		
Current period	5,545	33,141
Others		202
Income tax expense recognized in profit or loss	<u>\$ 5,410</u>	<u>\$ 6,871</u>

On April 9, 2014, the Ministry of Finance promulgated the amendments to the Assessment Rules Governing Income Tax Returns of Profit-Seeking Enterprises, the Tax Ruling No. 10304540780, and the amendments apply to the filing of income tax returns for 2013 onwards.

	March 31,	December 31,	March 31,
	2014	2013	2013
Imputation credits accounts	<u>\$ 310,327</u>	<u>\$ 310,327</u>	<u>\$ 248,248</u>

For 2013 and 2012, there was no creditable tax ratio because the Group had a deficit. For the distribution of earnings generated after January 1, 1998, the imputation credit allocable to shareholders of Sunplus is based on the balance of the ICA as of the date of dividend distribution. The expected creditable ratio for the 2010 earnings may be adjusted, depending on the ICA balance on the date of dividend distribution.

The income from the following projects is exempt from income tax. The related tax-exemption periods are as follows:

Project	Tax Exemption Period
Sunplus	
Eighth expansion	January 1, 2010 to December 31, 2014
Twelfth expansion	January 1, 2009 to December 31, 2013
Thirteenth expansion	January 1, 2010 to December 31, 2017
Forteenth expansion	January 1, 2015 to December 31, 2019
Fivteenth expansion	January 1, 2015 to December 31, 2019
<u>Generalplus</u> Third expansion Fourth expansion <u>Sunext</u> Expansion	January 1, 2009 to December 31, 2013 January 1, 2010 to December 31, 2014 January 1, 2009 to December 31, 2013
Sunplus Innovation First expansion	January 1, 2009 to December 31, 2013

Income tax assessments

The income tax returns of Sunplus, Sunplus mMobile and through 2010; the income tax returns of Generaplus, Sunplus Innovation, Sunplus management Consulting, iCatch, Sunext, Wei-Yough, Lin Shih and Sunplus Venture through 2011. The income tax returns of Sunplus mMedia through 2012. Nevertheless, for conservatism purposes, Sunplus and its subsidiaries provided for the income tax assessed by the tax authorities.

## 27. EARNINGS PER SHARE

## **Unit: NT\$ Per Share**

	For the Three Months Ended March 31		
	2014	2013	
Basic loss per share	<u>\$ 0.01</u>	<u>\$ (0.07</u> )	
Diluted loss per share	<u>\$ 0.01</u>	<u>\$ (0.07</u> )	

The earnings and weighted average number of common shares outstanding in the computation of earnings per share were as follows:

## Net Profit for the Period

	For the Three Months Ended March 31	
	2014	2013
Profit for the period attributable to owners of the Group Effect of dilutive potential common shares:	\$ 8,460	\$ (43,950)
Employee share option Earnings used in the computation of diluted earnings per share	<u>-</u> <u>\$ 8,460</u>	<u>-</u> <u>\$ (43,950</u> )

Weighted average number of ordinary shares outstanding (in thousand shares):

	For the Three Months Ended March 31	
	2014	2013
Profit for the period attributable to owners of the Group Effect of dilutive potential common shares:	588,435	588,435
Employee share option Earnings used in the computation of diluted earnings per share	588,435	588,435

## 28. SHARE-BASED PAYMENT ARRANGEMENTS

#### Employee share option plan

On September 11, 2007 (2007 option plan), the Securities and Futures Bureau approved the Group's adoption of an employee stock option plan. The plan provides for the grant of 280,000 thousand options in 2007 plan, with each unit representing one common share. The option rights are granted to qualified employees of the Group and subsidiaries. A total of 280,000 thousand common shares have been reserved for issuance. The options are valid for six years and exercisable at certain percentages after the second anniversary of the grant date. Stock option rights are granted at an exercise price equal to the closing price of the Group's common shares listed on the Taiwan Stock Exchange on the grant date. If the Group's paid in capital changes, the exercise price is adjusted accordingly. All options had been granted or canceled as of December 31, 2013.

Outstanding option rights were as follows:

	For the Three Months Ended March 31 2013		
	Unit (In Thousands)	Weighted- average Price (NT\$)	
Employee share option plan			
Beginning outstanding balance Options canceled	18,880 (230)	\$ 38.03	
	18,650	38.03	
Ending outstanding balance	18,650		

The number of shares and exercise prices of outstanding option have been adjusted to reflect the appropriations of dividends, cash dividends and issuance of capital stock specified under the 2007 plans.

As of March 31, 2014, the outstanding and exercisable options were as follows:

March 31,2013		
	Weighted- Average Remaining Contractual Life	
Exercise Price (NT\$)	(Years)	
\$37.9	0.62	
38.3	0.74	

In their meeting on June 18, 2012, the shareholders approved a restricted stock plan for employees with a total amount of NT\$280,000 thousand, consisting of 28,000 thousand shares, and authorize the board of directors to determine the issue prices of the restricted shares when they are issued. As of December 31, 2013, the restricted stock plan for Sunplus's employees had not been approved by the aurhorities, so it become invalid.

As of March 31, 2012, the Group had not yet issued any restricted shares employees.

Sunplus Innovation Technology Inc.

Sunplus Innovation Technology Inc.'s Employee Stock Option Plans were approved on April 18, 2007. The maximum number of options authorized to be granted was 2,200 thousand, with each option eligible to subscribe for one common share. The options of all the plans are valid for six years and exercisable at certain percentages after the second anniversary of the grant date.

Information about the Group's outstanding options for the three months ended March 31, 2013 was as follows:

	For the Three Months Ended March 31		
	20 Number of Options (In Thousands)	)13 Weightedaverage Exercise Price (NT\$)	
Balance, beginning of period Options exercised	752	\$ 10.90 -	
Balance, end of period	752		
Balance, end of period	752		

Information about the Group's outstanding options was as follows:

March 3	1, 2013
	Weighted- Average Remaining Contractual Life
Exercise Price (NT\$)	(Years)
\$10.9	0.36

## Restricted stock plan

In their meeting on June 28, 2012, the shareholders of Sunplus Innovation Techology Inc. (SITI) approved a plan on a restricted employee stock ownership plan (ESOP), through which employees would receive 2,400 thousand shares amounting to \$24,000 thousand, with no up-front cost and at a par value of \$10.00; the Financial Supervisory Commission approved this plan on June 28, 2012.

On August 7, 2013, under the board of directors' approval, SITI executed the restricted ESOP, through which employees received 1,000 thousand shares at a par value of \$10.00 with no up-front cost

Under the restricted ESOP, employees who are still employed by SITI and pass the annual performance appraisal are eligible for a certain percentage of shareholding, as stated below.

- a. 50% shareholding ratio after the second anniversary from the grant date;
- b. 50% of the shareholding ratio after the third anniversary from the grant date.

The restrictions under the ESOP are as follows:

- a. During the duration of the restricted ESOP,the employee may not vend, discount, transfer, grant, enact, or any other methods.
- b. During the duration of the restricted ESOP, employees will still receive stock and/or cash dividends, and also have rights to join the capital increase by cash plan (if any).
- c. Shares must be handed over to the trustees after the publication of the ESOP, and the company may not request a return of the ESOP before the realization of the vestin condition. If employees fail to meet the vesting condition, SITI has the right to take back and cancel the limited employee stock ownership, but the Company will still grant employees stock and cash dividends generated during the vesting period.

#### iCatch Technology Inc.

iCatch Technology Inc. had authorized 5,929 thousand units employee stock options as at September, 2013, each unit could acquired for 1,000 shares. Stock options were given to employees those who stasified specific conditions. The options are valid for six years and exercisable at certain percentages after the second anniversary of the grant date. Exercise price was \$10 per share. If there is any changes of common stocks after granted date, option exercise price will be adjusted.

Information about the iCatch's outstanding options for the year ended March 31, 2014 was as follows:

	Year ended March 31, 2014		
	Number of Options (In Thousands)	Weightedaverage Exercise Price (NT\$)	
Share-Based Payment			
Balance, beginning of period Options exercised	5,929	\$ - 10.00	
Balance, end of period	5,929	10.00	

	<b>Outstanding Options</b>		<b>Options</b> 1	Exercisable	
Range of Exercise Price (NT\$)	Number Outstanding (Thousand)	Remaining Contractual Life (In Years)	Exercise Price (NT\$/Per Share)	Number Exercisable (Thousand)	Exercise Price (NT\$/Per Share)
\$10.00	5,929	5.45	\$10.00	<u> </u>	\$ -

As of March 31, 2014, information about iCatch's outstanding and exercisable options was as follows:

Options granted were priced using the Black-Scholes pricing model and the inputs to the model were as follows:

Grant-date share price (NT\$) Exercise price (NT\$) Expected volatility Expected life (years)	\$ 3.25 10.00 31.89% 4.375 years
Expected dividend yield Risk-free interest rate	- 1.67%

## **29. GOVERNMENT GRANTS**

In August 2013, Sun Media Technology Co., Ltd. received a government grant amounting to RMB16,390 thousand (\$79,213 thousand) for the purchase of land on which to build ta plant. This amount, which was recognized as deferred revenue, will be recognized in profit or loss over the useful life of the land.

The total revenue recognized as profit for the years ended March 31, 2014 was 453 thousand.

## **30. DISPOSAL OF SUBSIDIARIES**

As stated in Note 13(2), the Group lost its control over Sunplus Core Technology Co., Ltd. and disposed of another subsidiary.. Related information is as follows:

## Analysis of assets and liabilities over which control was lost

	January 21, 2013
Current assets	
Cash and cash equivalents	\$ 1,168
Other receivables	1
Prepaid expenses	7,562

Payables	(20)
Net assets disposed of	<u>\$ 9,071</u>

Gain on disposal of subsidiary

	Year Ended December 31
Fair Value on January 21,2013 Noncontrolling interests Cash Net assets disposed of	\$ 204,998 22,724 (195,899) <u>(9,071</u> )
Gain on disposal	<u>\$ 22,752</u>

#### **31. OPERATING LEASE ARRANGEMENTS**

## The Group as lessee

Operating leases relate to leases of land with lease terms between 2 and 8 years. All operating lease contracts over 5 years contain clauses for 5-yearly market rental reviews. The Group does not have a bargain purchase option to acquire the leased land at the expiry of the lease periods.

#### Sunplus

Sunplus leases lands from Science-Based Industrial Park Administration (SBIPA) under renewable agreements expiring in July 2015, December 2020 and December 2021. The SBIPA has the right to adjust the annual lease amount of \$8,034 thousand. Sunplus had pledged \$6,000 thousand time deposits (classified as restricted assets) as collateral for the land lease agreements.

Future annual minimum rentals under the leases are as follows:

	March 31,	December 31,	March 31,
	2014	2013	2013
Up to 1 year	\$ 8,034	\$ 8,034	\$ 8,034
Over 1 year to 5 years	20,089	20,910	28,096
Over 5 years	<u>11,063</u>	<u>12,250</u>	<u>11,054</u>
	<u>\$ 39,186</u>	<u>\$ 41,194</u>	<u>\$ 47,184</u>
Refundable deposits	<u>\$ 296</u>	<u>\$ 296</u>	<u>\$ 296</u>

#### Sunplus Innovation

Sunplus Innovation leases office from Science-Based Industrial Park Administration (SBIPA) under renewable agreements expiring in December 2016 and December 2018. The SBIPA has the right to adjust the annual lease amount of \$9,961 thousand.

The future lease payables are as follows:

	March 31,	December 31,	March 31,
	2014	2013	2013
Up to 1 year	\$ 9,961	\$ 9,961	\$ 8,597
Over 1 year to 5 years		<u>38,840</u>	<u>12,381</u>
	<u>\$ 38,312</u>	<u>\$ 48,801</u>	<u>\$ 20,978</u>
Refundable deposits	<u>\$ 1,660</u>	<u>\$ 1,660</u>	<u>\$ 1,660</u>

## **Generalplus**

Generalplus leases land from Science-Based Industrial Park Administration under renewable agreements expiring in December 2020. The SBIPA has the right to adjust the annual lease amount of \$1,474 thousand. Generalplus deposited \$1,356 thousand (classified as restricted assets) as collateral for the land lease agreements.

Future annual minimum rentals under the leases are as follows:

	March 31,	December 31,	March 31,
	2014	2013	2013
Up to 1 year		\$ 1,474	\$ 1,474
Over 1 year to 5 years		5,896	5,896
Over 5 years		<u>2,948</u>	<u>4,053</u>
	<u>\$ 9,950</u>	<u>\$ 10,318</u>	<u>\$ 11,423</u>
Refundable deposits	<u>\$ 405</u>	<u>\$ 405</u>	<u>\$ 405</u>

#### Sunext

Sunext leased an office from Global View Co., Ltd. under renewable agreements expiring in August 2015. Global View Co. had the right to adjust the annual lease payment of \$2,760 thousand. In November 2013, however, the contract between Sunext and Global View Co., Ltd was canceled.

The lease payments were as follows:

	March 31,	December 31,	March 31,
	2014	2013	2013
Up to 1 year	\$ -	\$ -	\$ 2,760
Over 1 year to 5 years			3,910
	<u>\$</u>	<u>\$ -</u>	<u>\$ 6,670</u>
Refundable deposits	<u>\$</u>	<u>\$</u>	<u>\$ 460</u>

#### i Catch Technology, Inc. ("i Catch")

i Catch leases office from Siming Inc. and Siha Inc. under renewable agreements expiring in February 2016; the lease payments were \$1,688 thousand and \$1,274, respectively.

The future lease payments are as follows:

	March 31,	December 31,	March 31,
	2014	2013	2013
Up to 1 year	\$ 2,962	\$ 2,962	\$ 2,827
Over 1 year to 5 years	2,715	<u>3,455</u>	5,418
	<u>\$ 5,677</u>	<u>\$ 6,417</u>	<u>\$ 8,245</u>
Refundable deposits	<u>\$ 521</u>	<u>\$ 521</u>	<u>\$ 521</u>

#### The Group as lessor

Operating leases relate to the investment property owned by the Group with lease terms between 1to 5years. All operating lease contracts contain market review clauses in the event that the lessee exercises its option to renew. The lessee does not have a bargain purchase option to acquire the property at the expiry of the lease period.

As of March 31, 2014, December 31, 2013, March 31, 2013 deposits received under operating leases amounted to \$22,597 thousand, \$21,143 thousand and \$15,378 thousand, respectively.

The future minimum lease payments of non-cancellable operating lease were as follows:

	March 31,	December 31,	March 31,
	2014	2013	2013
Up to 1 year	\$ 118,002	\$ 104,105	\$ 70,473
Over 1 to 5 years	<u>116,950</u>	<u>95,915</u>	<u>46,665</u>
	<u>\$ 234,952</u>	<u>\$ 200,020</u>	<u>\$ 117,138</u>

## **32. CAPITAL MANAGEMENT**

The Group manages its capital to ensure that entities in the Group will be able to continue as going concerns while maximizing the return to stakeholders through the optimization of the debt and equity balance.

The capital structure of the Group consists of [net debt (borrowings offset by cash and cash equivalents) and equity of the Group (comprising issued capital, reserves, retained earnings and other equity) attributable to owners of the Group.

The Group is not subject to any externally imposed capital requirements.

## **33. FINANCIAL INSTRUMENTS**

- a. Fair value of financial instruments
  - 1) Fair value of financial instruments not carried at fair value

Except as detailed in the following table, the management considers that the carrying amounts of financial assets and financial liabilities recognized in the condensed consolidated financial statements approximate their fair values.

	_	March 3	31, 2014		_	December 31, 2013		
		Carrying Amount	Fair V	alue		arrying Amount	Fair	Value
Financial assets								
Financial assets carried at cost Debt investment with no	\$	308,432	\$	-	\$	311,448	\$	-
active market		14,903		-		-		-
		March 3	31, 2013					
		Carrying Amount	Fair V	alue				
Financial assets								
Financial assets carried at cost Financial assets carried at	\$	223,893	\$	-				
cost		14,520		-				

2) Fair value measurements recognized in the condensed balance sheets

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- a) Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- b) Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- c) Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).
- March 31, 2014

There were no transfers between Level 1 and 2 in the current and prior periods.

## b. Categories of financial instruments

	March 31, 2014	December 31, 2013	March 31, 2013
Financial assets			
Fair value through profit or loss (FVTPL) Held for trading Loans and receivables (i) Available-for-sale financial assets	\$ 8,027 4,941,969 2,656,756	\$      7,994 5,968,877 2,480,680	\$ 14,403 5,614,380 1,696,353
Financial liabilities			
measured at amortized cost(ii)	3,084,650	2,854,821	3,055,812

- (i) The balances included loans and receivables measured at amortized cost, which comprise cash and cash equivalents, debt investments with no active market, trade and other receivables, and refundable deposits. Those reclassified to held-for-sale disposal groups are also included.
- (ii) The balances included available-for-sale financial assets carried at cost.
- (iii) The balances included financial liabilities measured at amortized cost, which comprise short-term and long-term loans, trade and other payables, and long-term liabilities -current portion.

c. Financial risk management objectives and policies

The Group's major financial instruments included equity and debt investments, trade receivable, trade payables, bonds payable, borrowings and convertible notes. The Group's Corporate Treasury function provides services to the business, coordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Group through internal risk reports which analyze exposures by degree and magnitude of risks. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Corporate Treasury function reported quarterly to the Group's risk management committee.

1) Market risk

The Group's activities exposed it primarily to the financial risks of changes in foreign currency exchange rates (see (a) below) and interest rates (see (b) below). The Group entered into a variety of derivative financial instruments to manage its exposure to foreign currency risk and interest rate risk, including:

a) Foreign currency risk

A part of the Group's cash flows is in foreign currency, and the use by management of derivative financial instruments is for hedging adverse changes in exchange rates, not for profit.

For exchange risk management, each foreign-currency item of net assets and liabilities is reviewed regularly. In addition, before obtaining foreign loans, the Group considers the cost of the hedging instrument and the hedging period.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities (including those eliminated on consolidation) at the end of the reporting period were as follows.

	March 31, December 3 2014 2013			March 31, 2013		
Assets						
USD RMB JYP HKD EUR GBP <u>Liabilities</u>	\$	48,388 115,384 804 180 1 3	\$	64,585 43,497 328 102 2 3	\$	61,445 654 705 137 23 3
USD JPY HKD JPY EUR		55,167 15 1 -		57,938 30 - 25 300		32,017 40 - -

#### Sensitivity analysis

The Group was mainly exposed to the USD and RMB.

The following table details the Group's sensitivity to a 1 dollar increase and decrease in New Taiwan dollars (the functional currency) against the relevant foreign currencies. 1 dollar is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis included only outstanding foreign currency denominated monetary items and foreign currency forward contracts designated as cash flow hedges, and adjusts their translation at the end of the reporting period. A positive number below indicates an increase in post-tax profit and other equity associated with New Taiwan dollars strengthen 1 dollar against the relevant currency.

	For	USD impact For the Three Months Ended March 31			
		2014		2013	
Profit or loss	\$	6,779	\$	(29,428)	
		RMB i	mpact		
	For	the Three Mor	nths En	ded March	
		3	1		
		2014		2013	
Profit or loss	\$	(115,369)	\$	(614)	

#### b) Interest rate risk

The Group was exposed to interest rate risk because entities in the Group borrowed funds at both fixed and floating interest rates. The risk is managed by the Group by maintaining an appropriate mix of fixed and floating rate borrowings, and using interest rate swap contracts and forward interest rate contracts. Hedging activities are evaluated regularly to align with interest rate views and defined risk appetite, ensuring the most cost-effective hedging strategies are applied.

The carrying amount of the Group's financial assets and financial liabilities with exposure to interest rates at the end of the reporting period were as follows.

	March 31, 2014	December 31, 2013	March 31, 2013
Fair value interest rate risk			
Financial assets	\$ 2,281,798	\$ 2,471,805	\$ 3,018,438
Financial liabilities	315,673	-	177,801
Cash flow interest rate risk			
Financial assets	1,206,488	1,946,114	1,427,368
Financial liabilities	1,542,125	1,808,214	2,064,147

#### Sensitivity analysis

The sensitivity analyses below were determined based on the Group's exposure to interest rates for both derivatives and non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis was prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. Basis points of 0.125% increase or decrease was used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 0.125% basis points higher/lower and all other variables were held constant, the Group's post-tax profit for the three months ended March 31, 2014 and 2013 would decrease/increase by \$420 thousand and \$796 thousand.

c) Other price risk

The Group was exposed to equity price risk through its investments in listed equity securities. Equity investments are held for strategic rather than trading purposes. The Group does not actively trade these investments.

The sensitivity analyses below were determined based on the exposure to equity price risks at the end of the reporting period.

If equity prices had been 1% higher/lower, post-tax profit for the three months ended March 31, 2014 and 2013 would have increased/decreased by \$23,483 thousand and \$16,964 thousand.

2) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. As at the end of the reporting period, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties and financial guarantees provided by the Group is arising from the carrying amount of the respective recognized financial assets as stated in the condensed balance sheets.

In order to minimize credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Group consider that the Group's credit risk was significantly reduced.

The credit risk on liquid funds and derivatives was limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

Trade receivables consisted of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of trade receivables and, where appropriate, credit guarantee insurance cover is purchased.

The Group's concentration of credit risk of 53%, 46% and 51% in total trade receivables as of March 31, 2014, December 31, 2013 and March 31, 2013, respectively, was related to the five largest customers within the property construction business segment.

3) Liquidity risk

The Group manages liquidity risk by monitoring and maintaining a level of cash and cash equivalents deemed adequate to finance the Group's operations and mitigate the effects of fluctuations in cash flows. In addition, management monitors the utilization of bank borrowings and ensures compliance with loan covenants.

The Group relies on bank borrowings as a significant source of liquidity. As of March 31, 2014, December 31, 2013 and March 31, 2013, the Group had available unutilized overdraft and financing facilities refer to the following instructation.

a) Liquidity and interest risk rate tables

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables had been drawn up based on the undiscounted cash flows of financial liabilities from the earliest date on which the Group can be required to pay. The tables included both interest and principal cash flows.

# March 31, 2014

#### **37. ADDITIONAL DISCLOSURES**

- a. Following are the additional disclosures required for the Group and its investees by the Securities and Futures Bureau:
  - 1) Financings provided: Table 1 (attached)
  - 2) Endorsement/guarantee provided: Table 2 (attached)
  - 3) Marketable securities held: Table 3 (attached)
  - 4) Acquisition of property, plant and equipment at cost of at least \$300 million or 20% of the paid-in-capital: Table 4 (attached)
  - 5) Intercompany relationships and significant intercompany transactions: Table 5 (attached)
  - 6) Information on investee: Table 6 (attached)
- b. Information on investments in mainland China
  - 1) Information on any investee company in mainland China, showing the name, principal business activities, paid-in capital, method of investment, inward and outward remittance of funds, ownership percentage, net income of investees, investment income or loss, carrying amount of the investment at the end of the period, repatriations of investment income, and limit on the amount of investment in the mainland China area. (Table 7)
  - Any of the following significant transactions with investee companies in mainland China, either directly or indirectly through a third party, and their prices, payment terms, and unrealized gains or losses: (Table 8)
    - a) The amount and percentage of purchases and the balance and percentage of the related payables at the end of the period.
    - b) The amount and percentage of sales and the balance and percentage of the related receivables at the end of the period.
    - c) The amount of property transactions and the amount of the resultant gains or losses.
    - d) The balance of negotiable instrument endorsements or guarantees or pledges of collateral at the end of the period and the purposes.
    - e) The highest balance, the end of period balance, the interest rate range, and total current period interest with respect to financing of funds.
    - f) Other transactions that have a material effect on the profit or loss for the period or on the financial position, such as the rendering or receiving of services.

#### **38. SEGMENT INFORMATION**

Information reported to the chief operating decision maker for the purpose of resource allocation and assessment of segment performance focuses on types of goods provided. Since all products have similar economic characteristics and product selling is centralized, the Group reports information as referring to one segment. Thus, the information of the operating segment is the same as that presented in the accompanying financial statements. That is, the revenue by subsegment and operating results for the three months ended March 31, 2014 and 2013 are shown in the accompanying consolidated income statements, and the assets by segment as of March 31, 2014 and 2013 are shown in the accompanying consolidated balance sheets.

#### FINANCINGS PROVIDED THREE MONTHS ENDED TO OTHERS MARCH 31, 2014 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

			Financial		Highest		Actual			Business	Reasons		Co	ollateral	Financing	Aggregate
No	Lender	Borrower	Statement Account	Related Parties	Balance for the Period	Ending Balance	Borrowing Amount	Interest Rate	Nature of Financing		for Short-term Financing	Allowance for Bad Debt	Item	Value	Limit for Each Borrower	Financing Limit
0 1	Company Limited	Technology	Other receivables Other receivables	Yes	\$ 203,800 21,994	\$ 203,800	\$ 161,400	1.655% 3.3%	Note 1 Note 1	\$ - -	Note 2 Note 3	\$-	-	\$-	(Note 5)	\$ 902,127 (Note 6) 204,760 (Note 7)
		(Shenzhen) Sunplus APP Technology	Other receivables	Yes	8,706	8,706	8,706	3.3%	Note 1	-	Note 4	-	-	-	25,595 (Note 5)	51,190 (Note 6)

Note 1: Short-term financing.

- Note 2: Sunplus Technology Company Limited provided cash payments of Sunplus mMobile Inc.
- Note 3: Sunplus Technology (Shanghai) Co., Ltd. provided funds for Sunplus Prof-tek Technology (Shenzhen) to its need of operation.
- Note 4: Sunplus Technology (Shanghai) Co., Ltd. provided funds for Sunplus App Technology to for its need of operation.
- Note 5: For each transaction entity, the amount should not exceed 5% of the Group's and Sunplus Technology (Shanghai) Co., Ltd. net equity as of the latest financial statements.
- Note 6: The amount should not exceed 10% of the Group's and Sunplus Technology (Shanghai) Co., Ltd. net equity based on the latest financial statements.
- Note 7: For each transaction entity, the amount should not exceed 40% of Sunplus Technology (Shanghai)'s net equity as of the latest financial statement, and the each amount should not exceed 35% of the Company's net equity as of the latest financial statement because the borrowing company is the Group's parent company holding 100% by directly or indirectly.
